The assessment of external positions and exchange rates is a key mandate of the IMF. This paper presents the updated External Balance Assessment (EBA) framework—a key input in the conduct of multilaterally-consistent external sector assessments of 49 advanced and emerging market economies—following the two rounds of refinements adopted since the framework was introduced in 2012 (as ...

## Assessment of Approaches to Updating the Social Cost of ...

Assessing Approaches to Updating the Social Cost of Carbon: Project Description The Social Cost of Carbon (SCC) is an estimate, in dollars, of the long term damage caused by a one ton increase in carbon dioxide (CO<sub>2</sub>) emissions in a given year; or viewed another way, the benefits of reducing CO<sub>2</sub> emissions by that amount in a given year. The SCC is intended to be a comprehensive estimate of climate change damages that includes, among other costs, the changes in net agricultural productivity ...
