A055H195 (Issue 3) - Absolute Generators

The Modbus transmission control protocol (TCP) messaging service provides client-server communication between Modbus TCP client and PC500/550 server. PC500/550 responds to Modbus/TCP requests but does not initiate communication. The PC500/550 uses a default port 502 for all Modbus/TCP communication (can be changed in configuration).
