Exercise physiology is an emerging profession, and I'm excited to see how it will grow in the next 10, 30, and 50+ years. Yes, I am confident that ASEP will continue to grow stronger. The speed of this growth, however, depends on how well we are able to communicate with the public, our peers in the other health sciences, and with one another.

Master's Degree in Clinical Exercise Physiology | Ball ...

The Exercise Science Major provides students with a strong science foundation emphasizing preparation for further specialized graduate study or direct entrance into a variety of fields related to exercise physiology, biomechanics, sport medicine and direct entrance to upper level certifications in the rehabilitation and fitness industries.
