Greenhouse Gardening For Beginners - Where do I start?

Cold frames are among the simplest home greenhouses. Composed of low walls topped with a glass or plastic cover, they protect plants during chilly spring weather, especially in areas where wind is...

Greenhouse Gardening in Winter: What Plants To Grow in the ...

If you plan to continue gardening during the winter months, the first top investment should be a sturdy greenhouse with a proper insulation factor. Here are a few greenhouse accessories or equipment to either be built-in or become benchmarks when you're out on the market for a winter greenhouse. Built-in benches and shelves

A Greenhouse for Winter Growing - Northern Homestead

A Deep Winter Greenhouse (DWG) is a greenhouse designed to limit the amount of fossil fuel it takes to grow crops during cold winters. DWGs are passive-solar greenhouses that rely on energy from the sun to heat the building instead of more traditional heating sources. There are a few important aspects of the design that make this possible.
