Heart Dissection Lab Guide - u1.sparksolutions.co

YOUR GUIDE TO DISSECTION Since 1817 Dissection of a Heart By dissecting a heart you are able to practically investigate the general structure of the heart, and this can give students a better understanding of the way the various blood vessels, valves, muscles and tendons come together and help make the heart function.

Sheep Heart Dissection Lab for High School Science | HST

There are many ways you can cut your heart, but the most informative will perhaps be directly down the interventricular sulcus. Find the line in the front of the heart, and make an incision that isn't too deep, only going through the top wall. Lightly pull the two parts so it opens like a book, and take a look inside.
