The goal of the book is to share the techniques of the best companies. This book is aimed primarily at Product Managers working on technology-powered products.

### **Amazon.com: INSPIRED: How to Create Tech Products ...**

Tech products are created in two phases: product discovery and product delivery. The goals of product discovery are to choose the right initiatives and then decide what to build. In traditional companies, this process begins with inception when management, the product manager, or others within the company generate a list of initiatives.

## **Inspired: How the Best Companies Create Technology-Powered ...**

The second edition of Inspired is even better than the first (which used to be my favorite product management book). It is the best articulation of how to be successful in product management and how to create successful products that I have ever read.
