Motivational Interviewing in Health Care: Helping Patients ...

Motivational interviewing is a counseling method that helps people resolve ambivalent feelings and insecurities to find the internal motivation they need to change their behavior. It is a practical, empathetic, and short-term process that takes into consideration how difficult it is to make life changes.

What is Motivational Interviewing in Patient Care Management?

Motivational Interviewing for Health Care Professionals, gives a clear picture of not only what to say to a patient needing help in their medical care but also what not to say. It attempts to take the patient from "reacting" to health care advice to "thinking and reasoning" about health care, moving the thought processes from the limbic to the frontal areas of the brain where reasoning can take over.
