## **Past Issues | Comparative Labor Law & Policy Journal**

This bibliographic essay seeks to contribute to the understanding of convict labour from a global and long-term perspective. First the conditions conducive to the emergence and transformation of convict labour are addressed by framing this coercive labour form within broader classifications of labour relations and by discussing its connection with the problem of governmentality.

approaches to comparative law, but also presents more modern ones, such as socio-legal and numerical comparative law. Its contextualised approach draws on examples from politics, economics and development studies to provide an original contribution to topics of comparative law. Mathias Siems is Professor of Commercial Law at Durham University.
