Retina | ScienceDirect

Treatment of retinal disease may be complex and sometimes urgent. Options include: Using a laser. Laser surgery can repair a retinal tear or hole. Your surgeon uses a laser to heat small pinpoint spots on the retina. This creates scarring that usually binds (welds) the retina to the underlying tissue. Immediate laser treatment of a new retinal tear ...

Retinal diseases - Symptoms and causes - Mayo Clinic

Retinal vascular diseases are disorders that affect the blood vessels in the eyes. They have different ways of affecting vision and eye function, but all of them are involved with restricting blood circulation. Some causes a change with the blood flow, others disturb the blood vessel structure, while some affect the consistency of the blood ...

Ryan's Retina, 6th Edition - US Elsevier Health Bookshop

Retinal vascular parameters were measured using computer-assisted programs to quantify the retinal vessel widths (arteriolar and venular caliber) and retinal vascular network (fractal dimension). Data on ESRD was obtained by record linkage with the ESRD cases registered by National Registry of Diseases Office, Singapore.

Retinal diseases - Diagnosis and treatment - Mayo Clinic

Retinal diseases vary widely, but most of them cause visual symptoms. Retinal diseases can affect any part of your retina, a thin layer of tissue on the inside back wall of your eye. The retina contains millions of light-sensitive cells (rods and cones) and other nerve cells that receive and organize visual information.

Retinal Vascular Disease Chinese Edition

Retinal vein occlusion (RVO) is an important cause of visual loss among older adults throughout the world . RVO is the second most common cause of vision loss from retinal vascular disease, following diabetic retinopathy . The epidemiology, clinical manifestations, and diagnostic evaluation of RVO will be discussed here.
