VCE Physics - Formula sheet

VCE Physics examines models and ideas used to make sense of the world. By looking at the way matter and energy interact through observations, measurements and experiments, students expect to gain a better understanding of the underlying laws of nature. What are we going to be studying? The Physics course is divided up into four units.

Vce Physics Electricity

The VCE Physics Course includes the following topics for study: Circular Motion. Electric Motors. Electric Power. Electric Transmission. Electricity Generation. Electromagnetic Induction. Electronics and Photonics | Amplifiers. Electronics and Photonics | Circuits. Electronics and Photonics | Transducers. Further Electronics. Interactions of ...

Power Transmission - VCE Physics.com Transmission of electricity • Transmission of power over a long distance will cause a voltage drop & loss of energy due to heating of wires (resistance increases with length). • (Some high powered devices won't work with an extension cord!) • Electrical generation may be hundreds of km from the users.
